

**Mr. Tal Dilian**

---

Colonel Dilian had an impressive 25 year career in the Israeli Defense Forces, as Commander in the elite combat unit and the Chief Commander of the Technological Units. Mr. Dilian began his career began in 1979 when he served as a combat fighter in an elite Special Operations Unit of the Intelligence Corps in the Israeli Defense Force. He served in various positions in this unit until reaching the position of second in command.

Starting from 1994 Mr. Dilian served in the Technological Unit of the Intelligence Corps. Between 1998 to 2002 Mr. Dilian served as Chief of Command of that unit, and received the honorable Israel Defense Prize, which is the most prestigious honor awarded to an individual for outstanding contributions to the security of Israel. As commander of this unit, Mr. Dilian managed a staff comprised of 1500 soldiers and civilians as well as 700 engineers, and administered an annual budget of \$150 million. Under his leadership the unit developed a long-term strategy for the as well as long-term and short-term Research & Development programs. As the Chief of command of the unit, Mr. Dilian directed and coordinated numerous state-of-the-art technological innovation projects.

Mr. Dilian completed his military service in 2002, and still maintains extensive associations with the Intelligence and technology organizations of the IDF.

After Mr. Dilian completed his distinguished military service, he established several successful non-profit organizations. He has co-founded and personally led as CEO Atidim, an educational project for disadvantaged youth, which has been approved by the Prime Minister of Israel to become a national project. Employing his Atidim model of uniting diverse groups in creating and implementing far-reaching visions of economic transformation and healthy communities, Mr. Dilian has also engaged as the co-founder and senior director in strategic regional development projects in the Negev and the Galil (Daroma & Zafona), both of which are today in the implementation stage.

Since 2005 Mr. Dilian founded with partners four Start-Up companies (<http://www.solaredge.com>; <http://www.vidyo.com>) & raised a US VC Fund called ORR VENTURE 1 to invest in these seed companies.

In the year 2009 Mr. Dilian served as a Chief Security Architect at AGT (an American based company) and during the year 2010 he served a special advisor to the Chairman of Punj Lloyd Ltd, and Indian/Singaporean infrastructure company. He is also a board member of Objet, the world leading 3D printing company <http://www.objet.com>

Starting from 2009 Mr. Dilian founded with partners Circles Technologies Ltd, a startup company in the field of HLS.

Tal Dilian participated in the Interdisciplinary Program for Outstanding Students in the Tel-Aviv University. He received his BA, LLB and MBA degrees from TAU.
